Declaration of Reverse Solicitation and Acknowledgement of Risks

I have actively sought out Taurex's services and fully understand that, due to the lack of local regulatory oversight, I am not afforded the same level of protection as I would be with a locally regulated broker. I have carefully considered these risks and have chosen to proceed with your services despite them.

I acknowledge and accept the following:

- **Leverage Restrictions**: I will not be protected by local leverage restrictions for CFDs.
- **Segregated Account**: My funds will not be segregated from the company funds.
- **Negative Balance Protection**: I will no longer have Negative Balance Protection; this means my account might go negative and I might lose more than my initial deposit.
- **Restriction on Incentives**: I will not be protected by local restrictions on offering monetary and non-monetary incentives to retail investors.
- **Prescribed Risk Warning**: I will not be provided with a standardized risk warning, including the percentage of clients that lose money when trading with Taurex, as may be prescribed by local regulations.
- **Personal Responsibility**: I am solely responsible for any financial losses or gains incurred through my transactions with Taurex.
- **Capital Adequacy Requirements**: Taurex is not subject to the same capital adequacy requirements as may be required for other CFD Brokers under your local laws.
- **Consumer Protection**: Taurex may not be subject to the same consumer protection rules as locally regulated brokers.
- **Due Diligence**: I have conducted my own due diligence on Taurex and am satisfied with its financial stability and operational practices.

I understand that this letter does not create any contractual relationship between myself and Taurex. However, it serves as a record of my understanding and acceptance of the risks associated with engaging with a broker not regulated in my jurisdiction.
